

PRE-
WRITING
WITH
RHYMING

Jorge A. Ochoa, OTR

Directions

1. This activity is for children 3 ½ years old and older.
2. Trace/draw from top to bottom, left to right in order to follow standard writing and reading sequence.
3. Use index finger to trace shapes before using drawing instrument.

Vertical Line

Trace the lines down
From the top with a slide...

Connect all the dots
And make them hide.

Horizontal Line

Trace the lines
From left to right...

Connect the dots
So they're out of sight.

Circle

Trace the circle all around...

Connect the dots
Until none are found.

Cross

Trace the two lines.
Cross only two...

Connect all the dots
Until you are through.

Square

Trace all the lines.
Let's count.
It's just four...

Connect all the dots
'til there are no more.

Triangle

Trace all the lines
One, two and three...

Connect the dots
To look like a tee-pee.

Trace the shapes
From the inside out...

Now trace the thin ones
Without moving about.

Trace the circles
Starting at the face...

Now trace the squares slowly
This isn't a race.

Trace the triangles
And make sure your lines don't tangle.

Copy the shapes
One by one.
Start at the top.
Now isn't that fun?
